Experience

Data Annotation

Remote

AI DATA ANNOTATOR

July 2026 - current

- Develop test cases to break AI coding models such as **Codex, Claude, and Gemini**, highlighting development focus for next-gen models.
- Analyze performance of agentic coding models on accuracy and efficiency, describing technical concepts in clear English.
- Pass an entrance exam for software proficiency and language that less than **3% of test takers pass**.

Paramount Global

Remote

CAMPAIGN MANAGER - DIGITAL AD OPS

September 2022 - current

- Built a custom FreeWheel Creative Approval interface in just 5 days against the **FreeWheel API**, speeding up our approval process by **50x**
- Designed and built an automatic VAST macro replacement tool which formats tracking pixels **3600% faster** than the previous method.
- Serve as **liaison between server data and Sales**, ensuring digital ad campaign details are fully clear to clients.
- Ensure ad delivery on campaigns worth over **\$32 million** with clients like Disney, Apple, Unilever, and more.

CEIPSO Maestro Rodrigo

Aranjuez, Spain

ENGLISH LANGUAGE INSTRUCTOR

September 2021 - 2022

- Designed and delivered science lessons for 5th and 6th graders acquiring English fluency.
- Served as a **cultural and linguistic bridge** between English speakers and local communities.

TerraClear, Inc.

Bellevue, WA

SOFTWARE ENGINEER - SUMMER INTERN

May 2019 - Aug 2019

- Spearheaded **full-stack development** of a robotic telemetry service using **React Native, AWS, and SQL**.
- Independently designed the project in a **fast-paced startup environment**, emphasizing modularity for future adaptation.
- Partnered with robotics engineers to deliver a solution that reduced fault diagnosis time by **65%**

Education

Vanderbilt University

Nashville, TN

BACHELORS OF SCIENCE, COMPUTER SCIENCE

May 2021

- **Focus:** Applying software design patterns to build robust, scalable systems.
- **Skills:** Object-Oriented Design (C++, Java, Python), Algorithm Optimization, Statistics, Data Analysis, Database Management Systems.
- **Leadership:** Director of Vanderbilt's improv comedy troupe, leading rehearsals and developing team communication skills.

Community & Leadership

Beacon Food Forest

Seattle, WA

VOLUNTEER WATER STEWARD

June 2023 - Present

- Support Seattle's largest permaculture garden through plant care and community stewardship.
- Share knowledge with other Earth & Biology enthusiasts, forging connections across domains.
- Apply systems-level thinking to understand ecosystem interactions.

Boy Scouts of America

Port Washington, WI

EAGLE SCOUT

Jan 2017

- Demonstrated leadership, organization, and perseverance by achieving Scouting's highest rank.

Skills

- **Programming Languages:** HTML, JavaScript, CSS, Python, C++, Bash/Shell, SQL.
- **Technical Tools:** React Native, Svelte, AWS, REST APIs, Ad-serving Technology Platforms (FreeWheel, GAM), Linux/Unix Environments.
- **Agentic Coding Environments:** Claude Code, OpenAI Codex, MCP integration.
- **Project Management:** Managing multiple concurrent projects, rapidly learning new tools and domains, independent problem-solving.
- **Collaborative:** Team-oriented and community-driven, dedicated to learning from experts and strengthening group outcomes.
- **Bilingual:** Fluent in English and Spanish.
